Att. Docketing Dept.
Re: SCE&G's rate hike

This letter is to demonstrate my objection to SCE&G's requested rate hike of almost 10%. I am a senior living on a small retirement and Social Security and feel that I am part of a large group of citizens whom displays of political power (the health care situation, for instance) are aimed at and who would suffer from a utility rate hike. Not only seniors would be affected but such a raise in fees would also fall on many struggling families trying to provide climate comfort for their children.

I am outraged at the timing of this request.

RE: Docket No. 2009-489-E

To Whom it may Concern:

Please do not allow this rate increase to go through. I do not believe this company is trying to hold rates down. Afer all, how would they pay for that monostrous new complex they have built?

I these tough times, we all have to tighten our belts. They have not done that.

I simply have no more money to give them.

Thank you.

To: The Office of Regulatory Staff:

This is getting ridiculous that everytime we turn around South Carolina Electric and Gas is having another rate hike. The consumer has no choice in who we use and this is nothing more that a monopoly or highway robbery and should not be allowed. My electric bill has almost doubled in the last year and this would almost triple my bill. Pay is not going up but everything else is. This cannot be allowed to happen. Please think about the customers and do not allow this increase. The economy is bad enough, do not make it worse.
